

MULTI-SPECIES TRAINING CERTIFICATE OF COMPLETION

UNIVERSITY OF SOUTH FLORIDA
COMPARATIVE MEDICINE

Attendee Name: _____
Print Sign Date

Species trained: _____

Discuss/Review:

- Basic considerations of normal behavior and responses
- General health assessment: normal vs. abnormal
- Capture method
- Proper positioning/restraint for access to target area (e.g.: bleed site, tissue sampling site)
- Use of anesthetics as appropriate
- Identification methods if appropriate
- Blood sampling method overview of: _____
- Tissue sample method overview of: _____

Demonstrate:

Handling/Restraint/Health Assessments

- Capture, handling and restraint, including devices used
- Health assessment, identifying normal parameters, common findings, basic behaviors
- Performance of/Application of identification (e.g.: tag, tattoo, clip) (list: _____)
- Use of topical anesthetic as appropriate (list : _____)
- Use of other/general anesthetic agent (list: _____)

Blood/Tissue Sampling Method(s): _____

- How best to manually restrain
- Appropriate sample size
- Physical isolation of sampling site (e.g., to visualize vessel, or stabilize toe)
- Removal of tissue/digit
- Hemostasis method

Euthanasia

- Euthanasia method: _____
- Death is verified prior to carcass disposal

Training provided by: _____
